

Questions to Ask Yourself When Choosing a Plan

The Health Insurance Marketplace® offers different plan types to meet a variety of needs and budgets. Most people qualify for savings to make health coverage affordable. Compare plans based on what's important to you, and choose the price and coverage that fits your needs. Ask yourself these questions as you shop for Marketplace coverage.

Can I get help paying for Marketplace coverage?

When you enroll in a health plan on [HealthCare.gov](https://www.healthcare.gov), you can find low premium plans if you qualify for savings. More people than ever before may qualify for savings that lower the cost of monthly premiums and care. After you fill out a Marketplace application, you'll learn if you're eligible for savings. This savings will also apply to your child's dental coverage, whether it's a part of your health plan or a separate dental plan.

Visit [HealthCare.gov/lower-costs](https://www.healthcare.gov/lower-costs) to see if you may qualify for savings in the Marketplace based on your income.

What benefits do health plans cover?

All health plans in the Marketplace offer the same set of “essential health benefits.” These benefits cover things like doctor’s visits, prescriptions, hospitalizations, pregnancy, and more.

Health plans can offer other benefits, like vision, dental, or medical management programs for a specific disease or condition. However, specific benefits may be different in each state. Even within the same state, there can be small differences between plans. As you compare plans, you’ll see what benefits each plan covers.

How do I find a plan that fits my budget and meets my needs?

When choosing a plan, it’s a good idea to think about your total health care costs, not just the premium you pay to your insurance company every month. Other out-of-pocket costs, like coinsurance or a copayment, can have a big impact on your total health care spending.

To pick a plan based on your total care costs, you’ll need to estimate how much care you’re likely to use for the year ahead. When you compare plans in the Marketplace, you can choose each family member’s expected medical use as low, medium, or high. When you view plans, you’ll see an estimate of your total costs—including monthly premiums and all out-of-pocket costs—based on your household’s expected use of care.

Marketplace plans are put into 5 metal categories: Bronze, Silver, Gold, Platinum, and Catastrophic. **These categories are based on how you and the health plan share the total costs of your care.**

Generally, plan categories with higher premiums (Gold and Platinum) pay more of your total costs of care. Categories with lower premiums (Bronze and Silver) pay less of your total costs. See the exception about Silver plans in the shaded box.

If you’re under 30, you can enroll in a Catastrophic plan whether you have an exemption or not. If you’re 30 or older, you can enroll in this plan category only if you qualify for a hardship exemption (this includes affordability exemptions). To learn more about hardship exemptions, visit [HealthCare.gov/health-coverage-exemptions/hardship-exemptions](https://www.healthcare.gov/health-coverage-exemptions/hardship-exemptions).

Here’s how you find a plan category that works for you:

- **If you expect a lot of doctor visits or need regular prescriptions:** you may want a Gold or Platinum plan. These plans generally have higher monthly premiums but pay more of your costs when you need care.
- **If you don’t expect to use regular medical services and don’t take regular prescriptions:** you may want a Silver, Bronze, or Catastrophic plan. These plans cost you less per month, but pay less of your costs when you need care.

If you qualify for extra savings on out-of-pocket costs: your best value may be a Silver plan. If you qualify for a “cost-sharing reduction” based on your income, you can have a lower deductible and pay lower out-of-pocket costs (including copayments and coinsurance) when you get care—but only if you enroll in a Silver plan.

How does dental coverage work in the Marketplace?

After you complete your Marketplace application and get your results, you can view health plans that include dental coverage. Some health plans offer dental coverage, but not all of them. If you want dental coverage and your plan doesn't offer it, you can enroll in a separate stand-alone dental plan at the same time you enroll in a health plan. Some dental plans only cover children and others cover families. You should review the plan details to make sure the plan includes the benefits you want.

Children's dental coverage in the Marketplace is an essential health benefit. This means that if your child is 18 or younger, dental coverage must be available as part of a health plan or as a stand-alone dental plan.

Will my doctor and prescription drugs be covered?

When you start to compare plans in the Marketplace, you'll have the option to enter your doctors, medical facilities, and prescription drugs. When you view plans, you'll see if each plan covers the doctors, medical facilities, and prescription drugs you entered.

What's the health plan's quality rating?

You can compare health plans in the Marketplace using a 5-star quality rating for each plan. Under the 5-star quality rating system, plans are rated on a scale of 1–5. Five-stars means the plan has the highest quality. In some cases star ratings may not be available, like when plans are new or have low enrollment. The lack of a star rating doesn't mean the plans have a low quality rating. For more information about quality ratings, visit [Marketplace.cms.gov/outreach-and-education/choosing-a-high-quality-plan.pdf](https://www.Marketplace.cms.gov/outreach-and-education/choosing-a-high-quality-plan.pdf).
